ALA AMANI TEHRANI

Prospective Graduate Applicant | M.Sc. / Direct-Entry Ph.D.

alaamanitehrani6@gmail.com

ACADEMIC PROFILE

Computer Engineering graduate with a strong academic record and two research manuscripts in explainable network intrusion detection.

RESEARCH INTERESTS

Explainable AI for software engineering and security; faithful, evidence-grounded explanations from large language models; LLM agents for vulnerability detection; developer and analyst trust in AI tools; human-in-the-loop machine learning.

EDUCATION

Bachelor of Science in Computer Engineering | 22 Sep 2020 - 3 Sep 2024

Shahrekord University | Shahrekord, Iran

GPA: 17.48/20

ACADEMIC HONORS AND RECOGNITION

- Ranked among the top 20% of students in the undergraduate entry cohort.
- Recognized through the university's Exceptional Talents admission pathway for master's study.

SELECTED ACADEMIC PROJECTS AND COURSEWORK

Undergraduate Practical Work

- Worked with the STM32F101 microcontroller using C programming.
- Designed a graphical editor using the Sirius modeling tool.
- Built digital logic circuits for Digital Logic coursework.
- Bachelor's Project (graded 20/20): network traffic analysis with Wireshark and MikroTik; used Ubuntu Linux for this project and the Operating Systems Laboratory.
- **Earned 19/20 in Computer-Aided Design of Digital Systems.**

TECHNICAL SKILLS

Programming: Python (university coursework), C (STM32F101 microcontroller)

Databases: SQL (university coursework)

Operating Systems and Tools: Ubuntu Linux, Sirius

PUBLICATIONS AND MANUSCRIPTS

Conference Paper | Under Review | Paper ID: 1150

LLM-Assisted Human-in-the-Loop Validation for Explainable Network Intrusion Alerts

Submitted to the 12th International Symposium on Telecommunications (IST 2026) | ist.itrc.ac.ir

Authors and affiliations

Dr. Leila Samimi Dehkordi | Assistant Professor Department of Computer Engineering, Shahrekord University, Iran	L.samimi@gmail.com

PROFESSIONAL DEVELOPMENT | COURSERA

Courses in progress. Certificates expected upon successful completion; not yet earned.

- Python for Data Science, AI & Development
- Git for Beginners with Hands-on Labs
- Foundations of User Experience (UX) Design
- Visual Elements of User Interface Design
- Connect and Protect: Networks and Network Security
- Supervised Machine Learning: Regression and Classification
